

English Language Arts Grades K-5

We are excited to announce the implementation of Lucy Calkins Units of Study for Reading and Writing in Grades K-5 for the 2016-2017 school year. The Elementary English Language Arts curriculum at Collegium Charter School is built upon the PA Core Standards for Reading, Writing, Speaking, and Listening. Students build strong foundational skills and strategies in reading and writing across all content areas through a balanced literacy approach integrated in reader's and writer's workshop. Instruction is organized around grade-specific units focused on both fictional and informational texts, allowing students to develop a wide range of skills to engage in and master increasingly complex texts. Students build upon and refine strategies for writing across the curriculum. Our differentiated approach meets students with diverse abilities and needs at each grade level and prepares them for the rigors of 21st Century academics.
