

Social Studies K-6

Collegium Charter School's Social Studies curriculum is aligned to the PA Academic Standards for Civics and Government, History, Geography, and Economics. Our Social Studies program is designed to provide students with foundational knowledge that enables them to understand concepts and terms related to history and geography, to know when historical events occurred, and to learn about the men and women who were influential in the way that history unfolded. Students will recognize and understand how events of the past influence today and allow us to prepare for the future.
